

Yuav Ua Li Cas Thiaj Tiv Thaiv Tau Tus Mob Kheesxaws Hnyuv?

How Can We Prevent Colon Cancer?

Hnub No Peb Yuav Kawm Txog Dabtsi?

Peb yuav kawm txog:

- Kheesxaws Hnyuv yog dabtsi
- Yuav ua li cas thiaj tiv thaiv tau
- Cov kev kuaj rau kheesxaws hnyuv uas yuav pab tau koj
- Yuav ua li cas thiaj li mus kuaj tau kheesxaws hnyuv

Hnub No Peb Yuav Kawm Txog Dabtsi?

Tom qab peb qhov kev kawm no, peb yuav kawm txog:

- Kheesxaws hnyuv yog dabtsi
- Yuav ua li cas thiaj tiv thaiv tau
- Cov kev kuaj rau kheesxaws hnyuv uas yuav pab koj
- Yuav ua li cas thiaj li mus kuaj tau kheesxaws hnyuv

Hnub No Peb Yuav Kawm Txog Dabtsi?

Peb yuav kawm txog:
+ Kheesxaws Hnyuv yog dabtsi
+ Yuav ua li cas thiaj tiv thaiv tau
+ Cov kev kuaj rau kheesxaws hnyuv uas yuav pab tau koj
+ Yuav ua li cas thiaj li mus kuaj tau kheesxaws hnyuv

What Will We Learn Today?

We will learn:

- What colon cancer is.
- How to prevent it.
- Colon cancer tests that can save your life.
- How to get colon cancer screening.

Kev Kuaj FOBT Ua Zoo Li Cas?

FOBT kuaj nrhiav saib puas muaj ntshav nyob hauv cov quav ua tsis pom ntawm qhov muag.

Muaj 2 yam kev kuaj:

1. Guaiac Test
2. Fecal Immunochemical Test

Kev Kuaj FOBT Ua Zoo Li Cas?

FOBT kuaj nrhiav saib puas muaj ntshav nyob hauv cov quav ua tsis pom ntawm qhov muag.

Muaj 2 yam kev kuaj:

1. Guaiac Test

2. Fecal Immunochemical Test

Kev Kuaj FOBT Ua Zoo Li Cas?

- FOBT kuaj nrhiav saib puas muaj ntshav nyob hauv cov quav ua qhov muag ntsia tsis pom.
- Muaj 2 yam kev kuaj:
 1. Ib yam yog Guaiac Test. Nws siv 3 daim ntawv kuaj.
 2. Yam ob yog Fecal Immunochemical Test. Qho no siv ib lub hwj me me.
- Ob qhov kev kuaj no yus ua tom tsev los tau
- FOBT yog ib qho kev kuaj uas yooj yim tshaj ntawm cov kev kuaj tiv thaiv rau kheesxaws hnyuv.

What Is FOBT?

- Fecal Occult Blood Test or FOBT checks for blood that we cannot see in the stool.
- There are two types of FOBTs:
 1. One type is called the Guaiac Test. It uses three cards.
 2. The other is called the Fecal Immunochemical Test. It uses a small vial of liquid.
- Both tests can be done at home.
- FOBT is the simplest and easiest among all the colon cancer tests.

What Is FOBT?

Fecal Occult Blood Test or FOBT checks for blood that we cannot see in the stool.

There are two types of FOBTs:

1. Guaiac Test
2. Fecal Immunochemical Test

Qhov Kev Kuaj Guaiac Test No Ua Zoo Li Cas?

Qhov Kev Kuaj Guaiac Test No Ua Zoo Li Cas?

- Qhov Guaiac Test ua nyob rau tom tsev thiab siv 3 daim ntawm los mus kuaj nrhiav saib puas muaj ntshav nyob hauv cov quav
- Tus kws kho mob yuav qhia kom peb caiv zaum mob noj los tej yam tshuaj 3 hnub ua ntej peb yuav kuaj quav.
- Peb yuav siv ib tug pas so ib qho quav. Ib zaug twg nej tawm rooj yuav tsum so ib zaug, yuav ua li no peb zaug rau 3 lub sijhawm uas nej tau tawm rooj.
- Tom qab ua li ntawd tag peb mam li xa cov khoom siv kuaj ntawd rov qab mus rau koj tus kws kho mob los yog lwm qhov chaw uas muaj nyob ntawm lub hnab ntawv.
- Yog kuaj tsis tau dabtsi, tsis kuaj dua, tom lwm xyoo mam kuaj dua.
- Yog kuaj tau dabtsi txawv txav, tus kws kho mob yuav siv qhov kev kuaj colonoscopy.
- Ib xyoo twg peb yuav tsum kuaj qhov Guaiac Test no ib zaug.

How Do We Do The Guaiac Test?

- The Guaiac Test is done at home using a set of three cards to find whether there is blood in the stool.
- The doctor will tell us to stop certain types of food and some medications 3 days before the test.
- We use a wooden stick to smear a little bit of stool on a card. We do this for 3 consecutive bowel movements.
- When done, we return all 3 cards in the envelope to our doctor's office or laboratory.
- If the result is normal, we do not need another test until next year.
- If the result is abnormal, the doctor will follow up with a colonoscopy.
- We should do a Guaiac Test every year.

What Is The Guaiac Test?

Once a year

Qhov Kev Kuaj Fecal Immunochemical Test No Ua Zoo Li Cas?

Qhov Kev Kuaj Fecal Immunochemical Test No Ua Zoo Li Cas?

- Qhov Fecal Immunochemical Test ua nyob rau tom tsev thiab siv ib lub hwj me me, los mus kuaj nrhiav saib puas muaj ntshav nyob hauv cov quav
- Tsis tau caiv zaub mob noj
- Siv tus pab ntawm lub ncauj hau los mus so ib qho quav me ib zaug.
- Ntxiv mus, muab tus pas uas so tau quav ntawd ntsaws rov qab rau hauv lub hwj es kaws lub hau hwj kom ceev.
- Thaum ua tag li no lawm, muab lub hwj kaws rau hauv lub hnab ntawv xav mus rau koj tus kws kho mob los yog qhov chaw kuaj mob.
- Yog kuaj tsis tau dabtsi, tsis kuaj dua, tom lwm xyoo mam kuaj dua.
- Yog kuaj tau dabtsi txawv txav, tus kws kho mob yuav siv qhov kev kuaj colonoscopy.
- Ib xyoo twg peb yuav tsum kuaj qhov Fecal Immunochemical Test no ib zaug.

How Do We Do The Fecal Immunochemical Test?

- The Fecal Immunochemical Test is done at home using a small bottle of liquid to find whether there is blood in the stool.
- We do not need to stop any food or medication for this test.
- We use the tip of the stick (attached to the cap) to get a little bit of stool from only one bowel movement.
- Next, we put the stick with the stool into the bottle and close the cap tightly.
- When done, we return the bottle in the envelope to our doctor's office or laboratory.
- If the result is normal, we do not need another one until next year.
- If the result is abnormal, the doctor will follow up with a colonoscopy.
- We should get a Fecal Immunochemical Test every year.

- Kev siv teeb tsom xyuas txoj hnyuv siv ib t xo j yas me ntxig ntawm lub qhov quav raws t xo j hnyuv laus mus tsom saib seb puas muaj qog los yog kheesxaws los lwm yam kev txawv txav.
- Nws muaj ob yam kev kuaj saib t xo j hnyuv.
 1. Ib qhov yog Sigmoidoscopy (SIG-moy-DAW-skuh-pee)
 2. Qhov tib ob yog Colonoscopy (koh-luh-NAW-skuh-pee)
- Ob qhov kev kuaj no yuav tsum tau ua nyob rau tom kws kho mob qhov chaw ua hauj lwm.

What Are Endoscopy Tests?

- Endoscopy tests use a flexible thin tube with a camera to look into the colon to find polyps, cancers, or other changes.
- There are two types of endoscopy tests that look directly into the colon.
 1. One test is called “Sigmoidoscopy.”
 2. The other test is called “Colonoscopy.”
- Both tests have to be done in the doctor’s office.

Kev Siv Teeb Tsom Xyuas Txoj Hnyuv Ua Zoo Li Cas?

Kev siv teeb tsom xyuas t xo j hnyuv sib ib t xo j yas me uas muaj ib lus koob yees duab.

Muaj ob yam kev kuaj tsom saib t xo j hnyuv:

1. Sigmoidoscopy (SIG-moy-DAW-skuh-pee)

2. Colonoscopy (koh-luh-NAW-skuh-pee)

What Are Endoscopy Tests?

Endoscopy tests use a flexible thin tube with a camera. There are two endoscopy tests that look directly into the colon:

1. Sigmoidoscopy
2. Colonoscopy

Kev Kuaj Sigmoidoscopy Yog Ua Zoo Li Cas?

Kev Kuaj Sigmoidoscopy Yog Ua Zoo Li Cas?

Kev Kuaj Sigmoidocopy (SIG-moy-DAW-skuh-pe) Yog Ua Zoo Li Cas?

- Sigmoidoscopy yog ib yam kev kuaj uas tus kws kho mob muab ib txoj yas me ntxig ntawm yus lub qhov quav raws txoj hnyuv mus kuaj txoj hnyuv nplos qhov quav thiab ib qhov ntawm txoj hnyuv laus.
- Ua ntej yuav kuaj yam no, peb yuav tsum sib ib yam tshuaj mus yaug txoj hnyuv. (tsuag ntawm lub qhov quav mus)
- Qhov kev kuaj no uas hauv qhov chaw kho mob thiab yuav sib li 15 feeb.
- Peb mus tau tsev tom qab.
- Yog tus kws kho mob nrhiav tau qog los yog lwm yam txawv txav, nws yuav hlais me ntsis coj los kuaj seb yog muaj mob dabtsi, tej zaum nws kuj muab lub qog hlais pov tseg.
- Peb yuav tsum kuaj qhov Sigmoidoscopy no 5 xyoo twg mus kuaj ib zaug.

What Is Sigmoidoscopy?

- Sigmoidoscopy is a test in which the doctor uses a flexible thin tube with a camera to look directly into the rectum and the lower part of the colon.
- Before the test, we need to partially cleanse the colon by using an enema (a cleansing liquid squirted into the anus).
- This test can be done in the doctor's office or a clinic in about 15 minutes.
- We can go home by ourselves after the test.
- If a polyp or abnormality is found during the exam, the doctor will biopsy it and may remove it.
- We should get a Sigmoidoscopy every 5 years.

What Is Sigmoidoscopy?

Every 5 years

Kev Kuaj Colonoscopy Yog Ua Zoo Li Cas?

10 xyoo twg
kuaj ib zaug

Kev Kuaj Colonoscopy (koh-luh-NAW-skuh-pee) Yog Ua Zoo Li Cas?

- Colonscopy muaj ntsis zoo tib yam li sigmoidoscopy, tsuas yog siv ib txoj yas ntev ntxig kom thoob txoj hnyuv laus thiab hnyuv nplos qhov quav
- Ua ntej yuav kuaj yam no, koj yuav tau haus ib cov tshuaj mus yaug thoob plaws koj txoj hnyuv
- Qhov kev kuaj no uas rau hauv qhov chaw kho mob thiab yuav sib li 30 feeb.
- Tus kws kho mob mam li txhaj ib koob tshuaj raws txoj leeg kom koj pw tsaug zog tsis hnov thaum lub sij hawm kuaj koj ntawd.
- Koj yuav tsum muaj ib tug neeg pab tsav tsheb los yog nrog koj mus tsev tom qab kuaj tag.
- Yog tus kws kho mob nrhiav tau qog los yog lwm yam txawv txav, nws yuav hlais me ntsis coj los kuaj saib yog muaj mob dabtsi, tej zaum nws kuj muab lub qog hlais pov tseg.
- Peb yuav tsum kuaj qhov Colonoscopy no 10 xyoo twg kuaj ib zaug.

What Is Colonoscopy?

- Colonoscopy is similar to sigmoidoscopy, except the doctor uses a longer tube to check the entire colon.
- Before the test, we need to cleanse the entire colon by drinking a cleansing liquid.
- This test has to be done at a hospital or clinic and takes about 30 minutes.
- Medication is given through your vein to make you sleepy during the test.
- We need someone to take us home after the test.
- If a polyp or abnormality is found during the exam, the doctor will biopsy it or remove it.
- We should get a Colonoscopy every 10 years.

What Is Colonoscopy?

Every 10 years

Peb Yuav Hais Kom Tus Kws Kho Mob Kuaj Yam Twg?

FOBT

Kev siv teeb tsom xyuas plab
hnyuv (Endoscopy)

Peb Yuav Hais Kom Tus Kws Kho Mob Kuaj Yam Twg?

- Yog peb tsis tau kuaj dua li, peb tsuas tau kuaj ib yam kev kuaj xwb
- Kuaj FOBT yog qhov yooj yim tshaj
- Yog kuaj tau tsis muaj dabtsi, lwm xyoo mam mus kuaj dua.
- Yog kuaj tau dabtsi txawv txav ces yuav tau mus ua colonoscopy los yog sib teeb tsom txoj hnyuv laus.
- Yog kuaj tag lawm, nco ntsoov yuav tsum tau mus kuaj tiv thaiv kheesxaws hnyuv kom raws caij nyoog.

Nyob ntawm koj qhov kev kuaj, tej zaum koj tus kws kho mob yuav xaiv qhov kev kuaj rau koj.

Which Test Should We Ask For?

- If we have never been tested before, we only need one test.
- The easiest test to start with is a FOBT.
- If the result is normal, then we do not need to be tested for another year.
- If the result is abnormal, then we will need follow-up with a colonoscopy.
- If we have been tested for colon cancer before, be sure our testing is up-to-date.

Depending on your situation, your doctor may recommend one test over another, so talk to your doctor.

Peb Yuav Hais Kom Tus Kws Kho Mob Kuaj Yam Twg?

Which Test Should We Ask For?

FOBT or Endoscopy

“I can do nothing now about whether or not I will get colon cancer.”

What do you think?

- Actually, you are not powerless when it comes to colon cancer. Your daily actions can protect your health.
- If you do not have colon cancer, getting tested now will give you peace of mind.
- Even if you do get colon cancer, regular colon cancer testing can find it early enough to treat it effectively and save your life.

Feem Ntau Tib Neeg Ntseeg Hais Tias...

“Txawm yog hais tias kuv yuav mob thiab tsis mob kheesxaws hnyuv los kuv ua tsis tau dabtsi pab ziag no.”

Many People Believe That...

“I can do nothing now about whether or not I will get colon cancer.”

Yog Li Yuav Ua Li Cas?

***"Hu mus teem sijhawm nrog koj tus kws kho mob los
mus tham txog cov kev kuaj ntawm tus mob kheesxaws
hnyuv."***

- **Yog koj muaj ntawv kho mob li private health insurance, Medi-Cal, los Medicare:**

Hu koj tus kws kho mob los chaw kuaj mob mus
kuaj tiv thaiv tus mob kheesxaws hnyuv. Feem ntau daim
ntawv kho mob yeej them tus nqi kuaj.

- **Yog koj tsis muaj ntawv kho mob:**

Hu cov chaw kuaj mob thiab nug txoj cov kev kuaj
kheesxaws hnyuv. Kuv yuav muab ib cov chaw kuaj rau
koj.

What Should I Do Now?

"Call your doctor this week for an appointment to discuss your colon cancer testing options."

- If you have private health insurance, Medi-Cal, or Medicare:
You should contact your doctor or clinic for colon cancer testing. Most insurance plans pay for at least one colon cancer test.
- If you do not have health insurance:
You can contact your community or county heath clinic and ask for colon cancer testing. I will give you a list of places.

- Yog twb kuaj tag lawm, nug:
Thaum twg mam txog caij rau kuv rov kuaj dua?

Peb Yuav Nug Peb Tus Kws Kho Mob Txog Cov Kev Kuaj No Li Cas?

- Peb muaj txoj cai kom peb noj qab nyob zoo.
- Peb muaj txoj cai nug peb tus kws kho mob txog cov kev kuaj tiv thaiv mob kheesxaws hnyuv.
- Nqa daim ntawv nrog koj thiab nug:
“Kuv puas tau kuaj tiv thaiv tus mob kheesxaws hnyuv raws caij nyoog?”
- Yog tus kws kho mob teb hais tias koj tsis tau kuaj, nug:
“Koj pab xa kuv mus kuaj tiv thaiv kheesxaws hnyuv puas tau?”
- Yog twb kuaj tag lawm, nug:
“Thaum twg mam txog caij rau kuv rov kuaj dua?”

How Do We Ask Our Doctors For Colon Cancer Testing?

- We have a right to be healthy.
- We can ask our doctors respectfully about colon cancer tests.
- Bring the brochure to our doctors and ask: *“Have I had regular colon cancer testing?”*
- If our doctors say we have not had regular testing, ask: *“Can you help me get regular colon cancer testing?”*
- If we have had testing, ask: *“When am I due for my next test?”*
